Compression springs

**Where do I find more
than 6,000 different
types of compression
springs in stock?**

**Sodemann Industrifjedre A/S
has Denmark's largest stock
of standard springs with 6,400
different types of compression
springs in stock.**

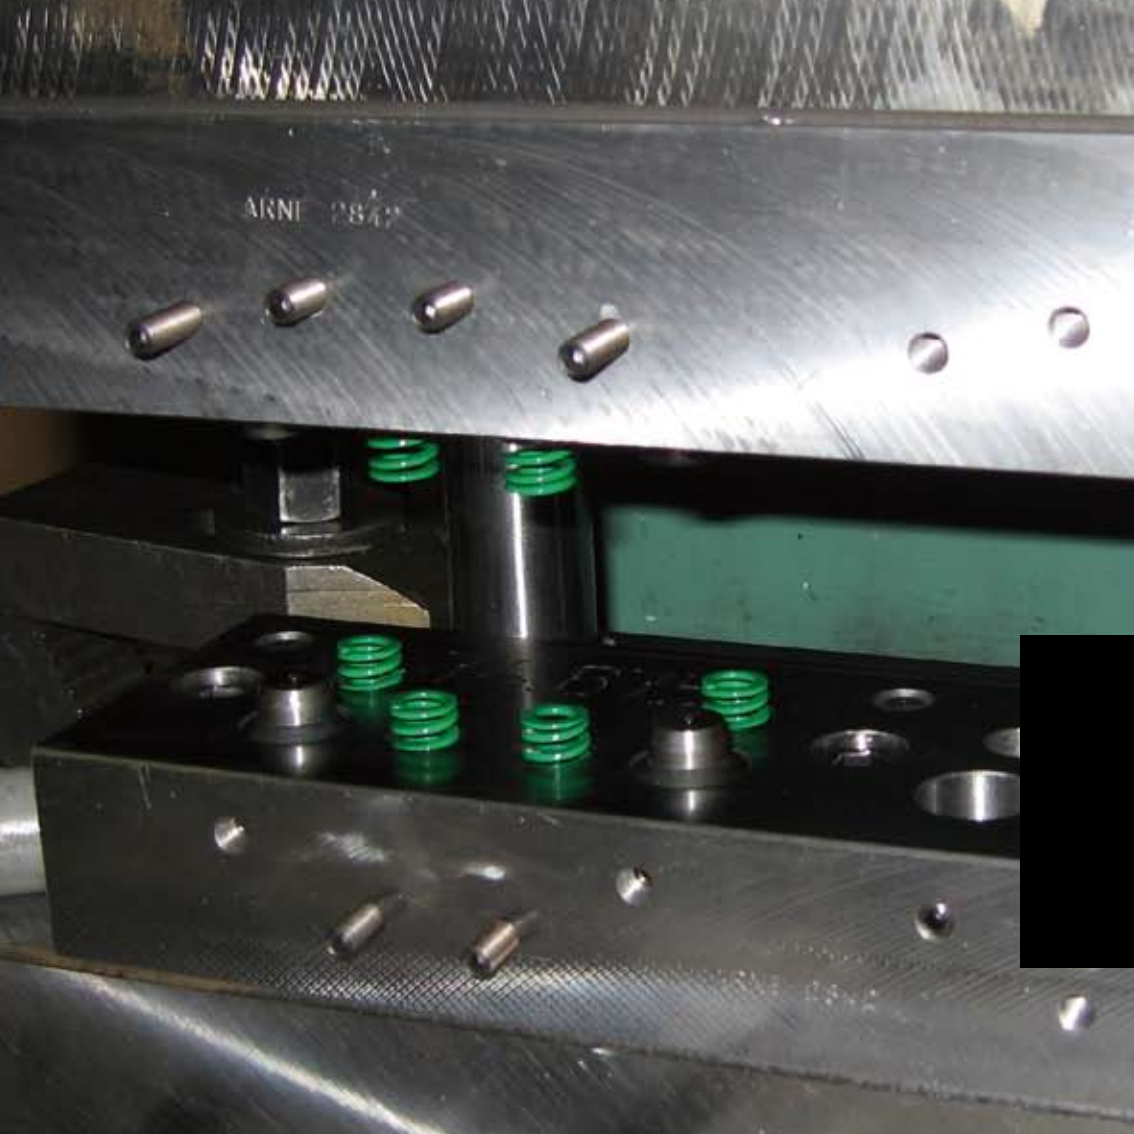

Extension springs

**Which extension spring
should I choose?**

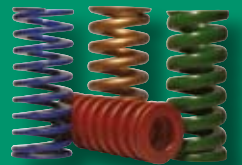

**Ask Sodemann - we have
3,300 different extension
springs in stock to
choose between. We will
find the extension spring
you need!**

Die springs

**I need greater power!
What do I do?**

You can choose a Die spring! A thrust spring in regular wire, which can handle the task. We have two lines of Die spring in stock - Raymond and ISO.

Torsion springs

Can a torsion
spring be used for
my application?

Ask Sodemann
- here you will get
an answer!

Disc springs

**I need great
power, but have
limited room!**

Then you need to
use disc springs.
This type of spring
gives great power,
but will take up only
little room in your
construction.

Gas springs with threaded ends

Can I use a gas spring as an alternative?

We find the solution...
Our large selection of gas springs, fixtures and fittings give endless possibilities!

Gas springs with welded eyes

Is there a quick guide on how to fit?

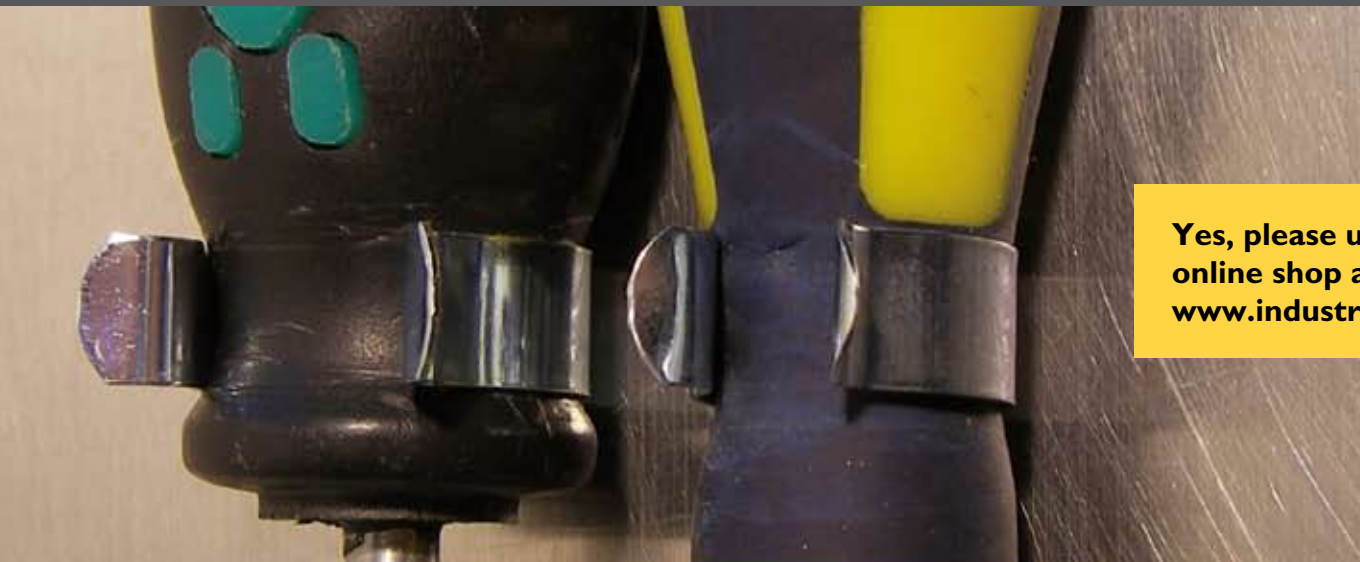

Sodemann supply gas springs with welded eyes – quick and simple.

Split pins and clips

Can I buy split pins and clips at a snap?

Yes, please use our online shop at www.industrial-springs.com

Specialty springs

**Which options
do I have besides the
standard selection?**

**With help from our technicians
you have many options. If our
standard assortment does not
cover your needs – we will still
find the solution which is needed!**
